Instruction manual

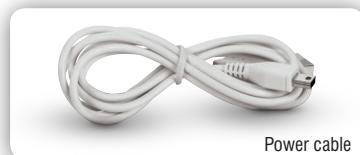

IMPORTANT - FIRST TIME CHARGING

Before using the light for the first time you need to charge it for 8 hours. After that the battery should last charged for around 2 - 3 hours.

CHARGE METHOD

Charge indicator light

Power cable

Plug other end of USB power cable into USB power source port. You can also charge by power adapter (optional). You can use the lamp while charging.

The battery will be fully charged after approximately 4-5 hours.

- Red light ON when battery is charging
- Red light OFF when charging complete

INSTALLING THE BATTERY CELL

The lamp is delivered with a sealed cell battery. Open the cover, remove the seal from the battery, and re-install the battery in the lamp.

- 1 Turn the battery cover CCW and remove it. Remove the battery cell from inside the lamp case. Note the cell direction.
- 2 Install a new 3V battery cell in the same direction as the original cell. Reinstall the battery cover and turn it CW until it locks in place.

In order to use the lamp properly, please change the battery cell when the LCD screen does not display information anymore.

The battery cell may move during transport of the lamp, and may lose contact. To eliminate play inside the battery holder, there is a small thin piece of foam between the battery and the cover to remove any excess free play.

LCD DISPLAY SCREEN

See "Operating Instructions" for setting the date / time / calendar.

POWER SWITCH

Press the power switch repeatedly to turn on/off the lamp, and adjust the brightness (3 levels).

COLORFUL NIGHT LAMP SWITCH

Pressing the switch repeatedly cycles between the night lamp modes:

- Level 1: Colorful small night lamp automatic cycle
- Level 2: Dim red light
- Level 3: Off

Soft light

- To avoid damaging the lamp, do not over-extend the joints.
- To avoid electric shock, do not disassemble the lamp yourself.
- Do not use the lamp in or near rain or damp conditions.
- Keep the lamp away from flammable and/or humid surroundings.
- If there is a problem with the lamp, it should be checked and repaired by a professional lamp repair person.
